

**Name:** Isabelle Aicklen

**Occupation:** MSc. Student at The University of Guelph

**Previous work and volunteer experience in Weed Science:**

I have previously participated on the OAC weeds team in addition to working for Syngenta Canada where I was involved with some herbicide research.

**How did you become involved with CWSS and when? I**

became involved with CWSS in January of 2021. What has the extent of your involvement been? (i.e. have you served on committees/executive?) I have not been involved with any committees/executive thus far but am hoping to become more involved in the future.

**Favorite memory/experience in your weed science career**

**to date?** I have enjoyed getting to work on my MSc. project pertaining to herbicide resistance. I have also enjoyed getting to learn from my peers about different research happening at the university and in industry.

**What is your favorite weed and why?** My favourite weed is velvetleaf because I like the leaf shape and texture.

**What are your career goals/future plans in weed science (if you are comfortable sharing)?** I would like to remain involved in research particularly with regards to solving issues related to herbicide resistance.
