CJPS Free Journal Access 2022

CSP has generously offered to provide all members of the CWSS (and CSA and CSHS) free access to the digital version of the Canadian Journal of Plant Science (CJPS) for the 2022 calendar year.

CSP's generous offer underscores the value we place on their relationship with the CWSS, and reminds us that we are all partners in this publishing landscape. It is worth remembering that CSP is a not-for-profit publisher. It is Canada's not-for-profit leader in mobilizing science making sure it is easy to discover, use, and share. Authors also enjoy a liberal copyright policy with their papers.

CSP's Open Access fees are very reasonable - \$750 for CWSS members! Please consider supporting not-for-profit publishing and consider the Canadian Journal of Plant Science has home for your research, including review papers, commentaries, and short pieces. Together, we can make

CJPS a strong journal and a valuable source of education and information in the field of Plant Science in Canada and abroad!
